Laykold® is an acrylic sports surfacing system that can be customised to achieve the desired performance, playability and appearance, making it an incredibly cost-effective way to breathe new life into asphalt or concrete surfaces. It is easy to maintain, and re-coating can extend a court's playing life or transform it completely.

Laykold® is the official surface of the Miami Open and has been since 1984. It is a popular choice for community-funded facilities as they find new ways to increase utilisation and physical activity. The same systems are being installed at clubs and schools as they introduce a new generation of players into the sports through HotShot and NetSetGO.

Laykold® is manufactured by APT Asia Pacific in our ISO 9001 Certified factory in Melbourne. APT Asia Pacific is a global leader in the development and manufacture of innovative, high performance and environmentally-friendly sports and recreational surfacing systems. The complete range includes synthetic grass for every application as well as polyurethane-based surfaces for athletics, indoor gymnasium flooring, and children's playgrounds.

PRODUCT FEATURES

	UV stable colours
	Slip resistant, injury reduction
	Long lasting, totally recoatable
	Glare resistant
	Environmentally friendly
	No heavy metals or solvents
